05 Sample terms and conditions

Sample policy wording

This policy provides the coverage specified in the policy schedule for the insured vacation property during the stated policy period, subject to the coverage limits, exclusions, conditions, and claim procedures defined in this document. Claims are subject to verification and assessment against the selected coverage and the information provided by the policyholder. Coverage is limited to the risks and benefits explicitly listed in the policy schedule. Any renewal, cancellation, or amendment must follow the applicable procedures implemented by the platform.

This is illustrative sample wording for an academic project and does not constitute an actual insurance contract or provide valid insurance coverage.

Covered events

Only events explicitly included in the selected policy's configured coverage options.

Exclusions

Losses, events, or circumstances not included in the selected coverage, and any exclusions explicitly listed in the policy configuration.

Claims instructions

The policyholder submits a claim through the platform with the required incident details and supporting documents. The claim is subject to verification and processing through the application's claim workflow. Submission does not guarantee approval or payment.

Cancellation conditions

Cancellation requests must follow the cancellation process supported by the application. Any applicable refund or charges must be calculated only according to configured business rules.

Renewal conditions

Policies may be renewed through the application's renewal workflow, subject to eligibility checks, updated premium calculations, and successful renewal processing.
